

Charts

Data charts

Grid/axes/tics

- xy axes: .5pt 100% black rules. If “0” appears mid-graph set 100% black (sample 3).
- Grids: .5pt 50% black rules (samples 1-3). Exception is when background screen is used to divide chart into sections (sample 5) or there is only 1 x-axis tic mark (sample 4).
- Tic marks: .5pt 100% black rules, 6pt long.

Plot rules/plot points

- Plot rules: 1.75pt, 100% color. Dashed rule sets 5pt dash/2pt gap. Colors in order of use preference: 04_red, 09_teal, 12_green
- Plot points: 5 x 5pt plot points, radial fill 100% color—0% with highlight at upper left per sample 2. No stroke.
- Plot point colors: Should contrast with plot rule i.e. red rule/teal plot point, teal rule/fuschia plot point, green rule/orange plot point. When plot points appear without a rule default fill is teal (sample 3).

Labels

- Graph titles 8pt Helvetica bold init cap/lower case, 100% black, centered over graph. 6pt space between title and top of graph.
- Axis titles 8pt Helvetica bold 100% black. 4pt space between title and axis labels.
- Axis labels 8pt Helvetica medium 100% black. 4pt space between axis labels and axis rule.

Data chart variants

Error bar & Box and Whisker charts:

- **Error bars:** 1pt 100% 04_red bar, 1pt end-caps 6pt long centered on vertical bar. Points: 5 x 5pt point, radial fill 100% 09_teal–0% with highlight at upper left per data chart samples 2 & 3. No stroke.
- Set axis rules, tic marks, and background grid as for data chart samples 1-3 for error bar charts.
- **Box and whisker charts:** Boxes 18pt wide. .5pt 100% 13_dark green exterior/interior box rules, 20% 12_green box fill. 1pt 100% 13_dark green “whiskers” rule with 1pt end-caps 6pt long centered on top and bottom of rule.
- Set axis rules, tic marks, and horizontal background bars as for bar charts for box and whisker charts.

Labels

- Set as spec'd on data chart general directions previous page.

Sample 6, Error bar charts

Sample 7, Box and whisker charts

Bar charts

Sample 1

Sample 2

Grid/axes/tics

- *xy* axes: .5pt 100% black rules.
- Horizontal graph background rules: .5pt, 50% black rules. Set r.h. vertical rule to “box” background grid. 18pt space between grid rules/tics preferred spacing.
- Tic marks: .5pt 100% black rules, 6pt long.

Bars:

- 14pt preferred bar width, color fill, no rule. See color palette for bar colors and percentages.
- When bars appear as pairs or in groupings choose contrasting colors for legibility. See color palette for pair colors.
- Set dropshadow to bars using effect pulldown menu in Illustrator (effect > stylize > drop shadow). Settings: Opacity 75%, Offsets and blur 0pt, color 50% K. See color palette for screen capture of settings.

Key

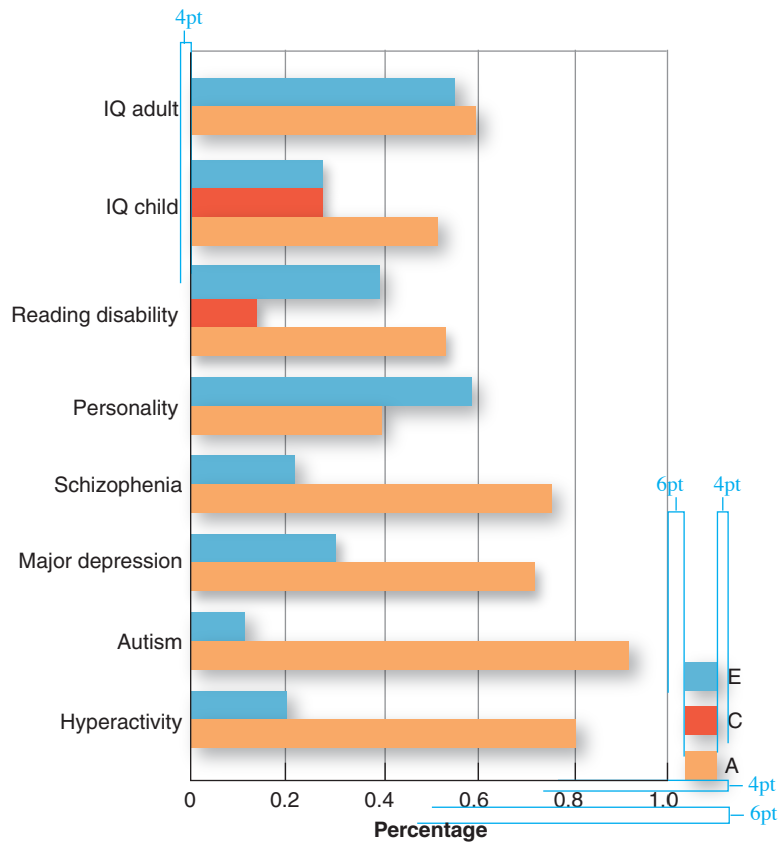

- When a key is indicated set to right of graph, base aligned with *x* axis. Allow 6pt space between graph and key material, 4pt between key and key labels.

Labels

- Set as spec'd on data chart general directions.

Charts, continued

Bar charts continued

Sample 3, horizontal bar chart

Grid/axes/tics

- Set as for vertical bar graphs except set .5pt, 50% black vertical background rules per sample. 36pt space between grid rules/tics preferred spacing.

Bars:

- 14pt preferred bar depth but if there are multiple bars or pairs as in sample use 10pt depth. Color fill, no rule. See color palette for bar and bar pair colors.
- Set dropshadow to bars using effect pulldown menu in Illustrator (effect > stylize > drop shadow). Settings: Opacity 75%, Offsets and blur 0p3, color 50% K. See color palette for screen capture of settings.

Key

- Set as for vertical bar graphs.

Labels

- Set as spec'd on data chart general directions.

Pie charts

Pie

- Preferred size 12 x 12pts, but can be smaller if labels allow. No rules between wedges or around exterior or chart. Use contrasting color fills for wedge sections. See color palette for color choices.
- Set dropshadow to pie charts as for bars in bar charts, using effect pulldown menu in Illustrator (effect > stylize > drop shadow). Settings: Opacity 75%, Offsets and blur 0p3, color 50% K. See color palette for screen capture of settings.

Labels

- 8pt Helvetica Medium set flush left, set inside “wedges” when possible. If label is placed outside set .5pt 100% black leadline to corresponding wedge.

Flowcharts

Boxes/leadlines

- Set using color screen boxes, color choices as spec'd on color palette, no keyline rule. "Title" boxes set 100% color with d.o. white all cap text.
- Set dropshadow to flowchart boxes as for bars in bar charts, using effect pulldown menu in Illustrator (effect > stylize > drop shadow). Settings: Opacity 75%, Offsets and blur 0p3, color 50% K. See color palette for screen capture of settings.
- Leadlines: .65pt 100% black. If arrows are spec'd at end of leadlines set #3 arrow from Illustrator palette scaled at 100% .

Labels

- 8pt Helvetica bf all caps, d.o. white, for any title boxes. 8pt Helv bf init cap/lower case for second level title boxes. 8pt Helv medium for all others.

Technical figures

Punnett squares

Body

- Rectangular multi-column shape (sample 1): Preferred column depth 18pt. Body columns equal width. No rules between header bars (100% color) and body column or around exterior. 1pt d.o. white interior rules. Use contrasting color fills for sub-head and body sections.
- Square shape (sample 2): Square divided into 4 equal sections divided by 1pt d.o. white interior rules. No exterior rules. Center labels in sections.
- When header bars are used set 100% 08_blue with d.o. white bf labels.
- Use flowchart color choices on color palette for Punnett square figures.

Labels

- 8pt Helvetica Medium or bolface set centered.

Mother's Allele	Father's Allele	
	Curly (C)	Straight (c)
Curly (C)	CC (homozygous curly)	Cc (heterozygous curly)
Straight (c)	Cc (heterozygous curly)	cc (homozygous straight)

Sample 1

X _H X Mother	
XY Father	X _H X
	XY
X _H Y	X _H X
	XY

Sample 2

Normal curve:

- Axis and curve: .5pt 100% black rule, 1.75pt 100% color curve.
- Section fills/rules: 20-40% color screens with good contrast. Set fill dark enough to set off white rule but light enough for labels to be legible. 1pt d.o. white vertical rules divide sections.
